

## Coordinating and Information Management Center

### RFA 13-07: CIRM Alpha Stem Cell Clinics Network: Coordinating and Information Management Center

RFA 13-07 is one of two RFAs released as part of the CIRM Alpha Stem Cell Clinics (CASC) Network Initiative. The overall goal of the initiative is to accelerate therapeutic development and delivery of stem cell therapies by providing a high-quality, efficient infrastructure to support clinical research emanating from CIRM's funding pipeline as well as non-CIRM funded investigator- or industry-sponsored trials.

#### The CASC Initiative consists of two linked Requests for Applications (RFAs) that will be co-released:

1. RFA13-06: Alpha Stem Cell Clinics Sites: Up to five clinical sites located in or affiliated with existing academic centers. (See RFA 13-06)
2. RFA13-07: Coordinating and Information Management Center (CIMC): One coordinating center to facilitate the efficiency and effectiveness of the network of clinical sites across California.

The CIMC will provide critical inputs to the Alpha Stem Cell Clinics sites on clinical trial design and operations, data and information management, public and patient education, and developing an evidence base to support the development of sustainable business models including reimbursement strategies.

Please see the RFA for full details.
